

Thursday 28th February

Dear Parent/Guardian,

Keeping Teeth Clean

Our topic this term, involves the children learning about how to keep their teeth clean and how the digestive system works.

We will also be writing instructions explaining how to brush our teeth effectively. We have purchased plaque disclosing tablets, which the children will place in their mouths so that we can identify how effectively they brush their teeth. Old and new plaque will be identified by the colour which is left on the gums and teeth. We hope that the children will be able to improve the way they brush their teeth and understand the importance of dental hygiene.

In order for the children to take part in this activity, they will need to bring their **toothbrush and their toothpaste** into school on **Wednesday 6th March**. Please place these items in a bag which is clearly labelled with your child's name.

To ensure they are able to take part please fill out and return the slip below.

Kind regards,

Lower Key Stage Two Team
