

Learning Project - Our World

Age Range: KS1

Weekly Reading Tasks

Monday- Ask your child to look through their books and identify any places from around the world by looking at the illustrations. They could also look through a magazine or newspaper and find the names of different countries.

Tuesday- Follow the story [Here We Are](#) with your child. What makes our world so special? Using the story, your child can make a list.

Wednesday- Help your child to look through cookery books for a recipe originating from another country. Ask them to use decoding skills to read some of the ingredients. Why not make it if you have the ingredients!

Thursday- Use an atlas or a map and locate countries that make up the UK. Your child can then locate a contrasting country such as Brazil or Kenya. What is different? What is the same?

Friday- Follow the story [When I Coloured in the World](#). What would your child change about the world? Task them with drawing a picture of their ideal world.

Weekly Phonics Tasks

Monday- The word 'around' contains the sound 'ou'. Ask your child to list as many words as they can containing the 'ou' sound. Your child might identify words that contain an alternative spelling for 'ou' such as **ow**.

Tuesday- Practise spelling days of the week using different materials in the house. Can they find materials to match the colours of the UK flag?

Wednesday- 'Where', 'would', 'people', 'clothes' and 'water' are some of the words that children in KS1 need to be able to spell. Can your child use these to write sentences about a contrasting country?

Thursday- Can your child list places from around the world using the alphabet? Can they add an adjective before each place that starts with the same letter?

Friday- Recognise vowel and consonant digraphs and blending by playing [this](#) game or add suffixes playing [this game](#).

Weekly Writing Tasks	Weekly Maths Tasks- Subtraction
<p>Monday- Ask your child to create a leaflet about a place in the world they would like to visit/have visited. Include the weather, landmarks and cuisine.</p>	<p>Monday- Get your child to have a go at the online game for subtraction facts up to 20.</p>
<p>Tuesday- Draw a picture of 10 different pieces of fruit or vegetables from around the world and label them using adjectives e.g. fresh, juicy pineapple.</p>	<p>Tuesday- Give your child a number between 1 and 50 and ask them to list how many ways they could make the number using subtraction. Try 20 if this is too hard or even 100 if this is too easy.</p>
<p>Wednesday- Your child could write a set of instructions for a meal they would love to share with family and friends. They can use illustrations too.</p>	<p>Wednesday- Get your child to write a subtraction number bond to or within 10 - e.g. $9 - 4 = 5$ or $7 - 2 = 5$. Can they use these facts to find out the subtraction facts up to 100? E.g. $90 - 40 = 50$ and $70 - 20 = 50$.</p>
<p>Thursday- Your child could write a letter to a friend or a family member who lives in a different part of the world - describe where they live and describe school. Think of questions to ask about where they live and about their school.</p>	<p>Thursday (theme)- Look at flags from around the world either in books or on the internet. Ask your child to list any shapes they see and name the properties of the shapes they find. Ask your child how many lines of symmetry the flag has.</p>
<p>Friday- Visit the Literacy Shed for this wonderful resource on The Black Hat or your child could write their own version of When I Coloured in the World.</p>	<p>Friday- Encourage your child to practise different ways to subtract by playing these different activities.</p>

Additional learning resources parents may wish to engage with
<p>White Rose Maths _online maths lessons. Watch a lesson video and complete the worksheet (can be downloaded and completed digitally).</p> <p>Numbots_. Your child can access this programme with their school login.</p> <p>IXL- Click here for Year 1 or here for Year 2 . There are interactive games to play and guides for parents.</p> <p>Mastery Mathematics Learning Packs Learning packs with different activities and lessons. Includes notes on how to do these activities with your children.</p> <p>https://www.talk4writing.co.uk/covid-19/ - An excellent resource to support your child's speaking and listening, reading and writing skills.</p> <p>https://www.bbc.co.uk/teach/live-lessons/primary-live-lessons/zmc9jhy - Online learning and videos for all areas of the curriculum.</p> <p>https://www.thenational.academy/online-classroom/ - Oak National Academy has designed lessons for all year groups in every subject or follow the daily teaching plan.</p> <p>http://www.safetynetkids.org.uk/personal-safety/staying-safe-online/ - Want to find out more about helping your child stay safe online then try this website.</p> <p>https://www.childline.org.uk/info-advice/your-feelings/anxiety-stress-panic/worries-about-the-world/coronavirus/ - Supporting children's wellbeing</p>

Learning Project - to be done throughout the week

The project this week aims to provide opportunities for your child to learn more about countries and cities around the world. Learning may focus on different cultures and traditions, famous landmarks, food and clothing.

- **Flags-** Look at [flags from around the world](#) with your child. Discuss which are your child's favourites and why? Ask your child to recreate their favourite; this could be through drawing, collaging etc. Can they place the flag on a map? There are some quizzes that your child can have a go at [here](#). Can they create their own quiz about the UK?
- **Dance Around the World-** Watch the following dances: [Diwali Stick Dance](#), [Maypole Dancing](#) and [Spanish Flamenco Dancing](#). Encourage your child to have a go at some of the moves used in these videos. Record the dances and ask your child to evaluate what they did well and what they could do even better when watching them back. Can your child recreate one of the costumes using items from their wardrobe? Perform the dance to a family member.
- **Food Tasting Fun-** Find some different fruits from around the world. This could include: mangos, kiwis, pineapples, bananas. Encourage your child to try them and have a discussion about which ones they liked and which ones they did not like. Cut the fruits open and task your child with sketching the inside of each fruit. Remind them to look closely at the patterns and shapes.
- **Where in the World? -** Have a discussion with your child about your own family heritage. Discuss with them your traditions and where your family originates from. This may be where you live now or it could be somewhere completely different. Ask your child to create a poster or PowerPoint all about their own family. Can they include a map identifying the country they're from? Share these on Twitter at [#TheLearningProjects](#), so children can compare families.
- **Speak the Language-** There are lots of different ways to say hello around the world. Learn how to say hello in Spanish, French, Mandarin, German, Arabic and Italian with your child using [Google Translate](#). Practise writing hello using the colours of the flag for each country.

STEM Learning Opportunities #sciencefromhome

Engineering Around the World - World's Largest Steel Structure

- The Bird's Nest is the world's largest steel structure and was built in China for the 2008 Olympic Games. It is made out of 26 miles of steel.
- Use strips of paper, card or wool to create your own bird nest style building. You might like to search for photos of the 'Birds nest' to help you with your design.
