

In **English**, we will be reading and writing:

- Poetry and Adventure Stories.

In **Geography** we are looking at settlements.

We will learn what settlements are and how to recognise them.

We will identify the criteria for choosing a settlement and learn that there were different settlers in British history.

In **Design and Technology**, we will be exploring and investigating

free standing structures.

Using this knowledge we will be creating our own photo frames.

In **PSHE**, we will build upon our knowledge of our own physical health and wellbeing.

In **Spanish**, we will be learning to talk and write about the different parts of the body in year 4 and in year 3 we will review colours and animals.

LKS2 Autumn 2 Curriculum Bulletin

Land of Hope and Glory

Welcome back! We are so excited to start a new term. We have lots of exciting learning lined up this term.

Important Information:

Homework is set on a Friday via Teams and is to be returned by Wednesday. It is essential that your child's reading book and record is in school **every day**. We ask that your child reads at least 5 times a week and logs onto Times Table Rock Stars on a regular basis to sustain fluency. Please talk to your child's class teacher if you would like a copy of their log on details for Teams or TTRS. PE is twice weekly. Children will need to ensure they have **indoor and outdoor kit** in school every Monday (including footwear). This will stay in school all week and go home on a Friday.

A polite reminder, that your child will require a water bottle within school. There are no water fountains, however there are plenty of cold water taps to refill.

This term in **Maths**, Year 3 will be learning about:

- Addition and Subtraction.
- Multiplication and Division.

This term in **Maths**, Year 4 will be learning about:

- Addition and Subtraction.
- Multiplication and Division.

In **Physical Education**, we will be developing our rolling, jumping and balance skills in gymnastics and our attack and defence skills in netball, whilst developing our teamwork and social skills.

In **Science**, we have a biology focus of health and movement. We will learn about the nutrients we need to maintain our health. We will look at foods that provide nutrients for different parts of our bodies in humans and other animals. We will also explore how skeletons and muscles aid movement and provide protection and support.

In **Religious Education**, we will continue our learning about Hinduism.

In **Music** we will continue to develop our skills of playing the recorder and recognising notes on the musical stave.

Please remember to bring your recorders into school
